VERTICAL INTEGRAL CABINET

Design a store your way Harmonised
convenience store design Heder
Chilled with door, Heder Frozen.

Enable Simple Store Construction & Remodels

THE ABILITIES

- Mobility
- Flexibility
- Portability
- Sustainability
- Maintainability

The Easiest Way to Add Refrigeration Capacity

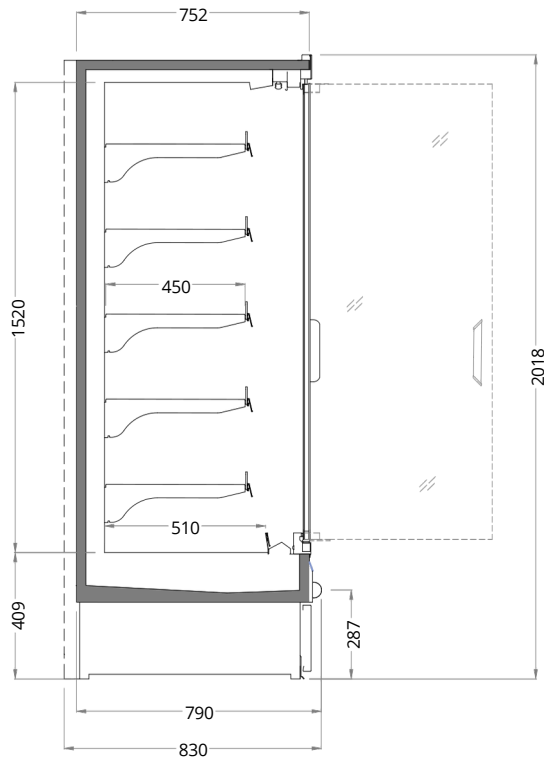

Benefits & Specifications:

- This is convenience cooling. No drains, no pipework, plug & play
- The look, feel & display area of remote case stores
- The most cost effective delivery of natural refrigerant stores for capex
- No water loop required. Low energy and heat rejection. Truly plug & play stores
- Condensing unit on pull out tray
- Refrigerant future proofed
- Designed for both the store operator and maintainer
- Fixed speed or inverter drive
- Optimised evaporator & condenser design for low charge refrigerant
- Hermetically sealed system, low charge and zero leakage

Options:

- Hinged or Sliding doors to chiller
- HFO, HC or HFC/HFO self contained dependent on geographical market
- Castors in addition to adjustable feet
- Various shelf profiling options
- Controller options to meet client specification

TECHNICAL DATA
